

## LEADING YOUR ATHLETIC DEPARTMENT

This workshop is intended to create alignment and help you shape the culture of your athletic department. This facilitated session will result in a written action plan for your leadership team, specific to your school and the population it serves.

During the workshop you and your team will discuss your ultimate goal(s) and vision as an athletic department and school, strengths and growth opportunities that can contribute to or detract from achieving those goals, and which tasks are necessary to complete your vision and achieve the goals you have set.

“ Changing the culture of an athletic department is not an easy task, but this workshop provided us with all of the resources we've needed to successfully initiate change. ”
